

K-LOVE brings wholesome values to radio. I only listen to K-LOVE because I know that the music and dialogue in between will be funny yet, family-oriented. I listen to it every day and will not listen to radio if in San Antonio it is taken off the air. I believe that the listeners in San Antonio will be losing a positive family oriented, radio station. The music and lyrics can calm the savage beast you can say. K-LOVE music stations bring a way for Christians to listen to music and be happy about radio in general. I along with fellow Christians will not listen to the garbage that is played on regular radio stations I can't trust the dialogue to be clean and family-oriented and to bring the same message to me. Thanks for listening,
